

EnrollPlus from CareEnroll— Helping your patients become *covered* patients

About CareEnroll

CareEnroll helps healthcare providers and health plans achieve their mission and widen public access to healthcare by serving both our clients and our clients' members. We are committed to identifying client needs and providing adaptive solutions that extend beyond the traditional client relationship.

Quality healthcare begins with enrolling every patient in the right health plan.

That's where we can help.

Our attentive, experienced specialists, located at client facilities and at our Call Centers, work one-on-one with patients to uncover the plan that's best for them—whether it be through a federal or state program, a marketplace insurance plan or another healthcare benefit solution.

But that's just the beginning. EnrollPlus team members are also advocates for your patients, providing follow-up support and maintaining contact with them to ensure that annual renewals are filed.

To learn more about EnrollPlus and other CareEnroll services, contact Dan Fairley at dan.fairley@careenroll.com or (219) 224-3589.
